

## 4 cores shielded fire alarm cable

### Standard

- IEC60502
- BS 6346
- GB 9330
- EN 13501-6

### Application

- Building intercom system
- Appliances inside
- Automation equipment
- Instrumentation
- Electronic equipment

### Specification

- |                   |     |                  |
|-------------------|-----|------------------|
| ■ Inner Conductor | CU  | 7* $\Phi$ 0.15mm |
| ■ Insulation      | PVC | $\Phi$ 0.9mm     |
| ■ Jacket          | PVC | $\Phi$ 6.9mm     |

### Electrical Performance (20 °C)

- |                               |                             |
|-------------------------------|-----------------------------|
| ■ Impedance: 39 $\pm$ 3 Ohm   | ■ Sparker Test: 1000VAC     |
| ■ Capacitance: 52 $\pm$ 2pF/m | ■ Far-End Crosstalk: 150khz |

### Thermal Characteristics

- |   |   |
|---|---|
| ■ For fixed installation: -35°C up to +70°C | ■ For mobile installation: -5°C up to +70°C |
|---|---|
